

## Practice Management Tools

**These user friendly tools will help you manage with less stress!**

### Do You Have a Budget?

**Implementing a budget is critical for improving your profit!**

Experts say that all businesses should update their business plan and budget every year. These basic tools help you set appropriate goals and provide a means to measure your progress toward those goals. After all, you wouldn't treat a patient without a specific goal in mind, why run your business any differently?

*Use PT Budget to quickly develop your budget. This easy to use workbook is chock full of shortcuts designed to make developing, implementing and monitoring a budget easier than ever! **Order now...only \$95***

### PT QuickBooks Template

**Organize your finances to highlight the critical areas!**

Chart of accounts are typically set up in an alphabetical order for tax accounting purposes which does not help you manage the practice on a monthly basis. Use our QuickBooks template to organize your finances using a managerial accounting concept and see your financial statements in a new light that helps you manage your business. All the tax info is still there, just better organized!

*This tool can help improve the profitability of your practice! **Order now...only \$95***

### PT Dashboard Report Excel Workbook Template

**Have all the key business metrics at your fingertips!**

This Excel workbook template organizes all the key business statistics from their various systems to give you quick access to the critical data. Make rapid comparisons to the same time last year and see the trends. The PT Dashboard Report helps you make better decisions; day in and day out!

*Use PT Dashboard to place all the key business statistics at your fingertips. This easy to use tool puts the key data in one easy location to improve decision making!  
**Order now...only \$95***

### PT Productivity Scorecards Excel Workbook Template – NEW!

**Track licensed staff productivity!**

Expand your toolbox to easily monitor key productivity statistics for licensed staff including rapid comparisons to the same time last year and view trends. The PT Productivity Scorecards tracks new patients, visits, visits per new patient, arrival rate, charges & payments per visit & per hour!

*Place these key productivity statistics at your fingertips. **Order now...only \$95***
